

# Proseminar „Convolutional Neural Networks - Methoden und Anwendungen“

Vortragstitel

Name / Autor

17. April 2022

# Outline

# Prerequisites & Goals

Knowledge is a brick wall that you raise line by line forever

## LaTeX

- Obviously some basic LaTeX knowledge is necessary
- Some more features will be provided here

## Beamer

- You'll learn them by looking at this presentation source

## Goal

- Learn how to make well structured slides
- Take over the world
- Relax...

# Outline

# Sections, Frames and Blocks

Put everything into boxes

The current section is „Basic structuring“. And the current frame is what you have on the screen right now.

## A beautiful block

A block has a title, and some content. You can put in a block almost everything you want that is provided by LaTeX. For example math works as usual:

$$\sum_{i=1}^n i = \frac{n \times (n + 1)}{2} \quad (1)$$

Also works outside a block:

$$\sum_{i=1}^n i^2 = \frac{n \times (n + 1) \times (2n + 1)}{6} \quad (2)$$

# Different type of blocks

Weeeee! Colors!!

## Standard block

- A standard block, used for grouping
- Obviously can contain itemizes too...
  - And nested itemizes...
  - of course!

## Alert block

WARNING: Something very important inside this block!

## Example

Note that examples are displayed as a special block...

# Outline

# Highlighting

Hey! Look here! here!

## A regular block

- Normal text
- Highlighted text to draw attention
- „Alert’ed“ text to spot very important information
- Alternatively you can
  - „Alert“ the item itself
  - Or „Highlight“ it

## If it's very very important...

... you can „alert“ in an „alertblock“  
Ewww, nasty, heh?

# Overlay effects

Keep the suspense!

## Time bomb

- 1 Two more to go
- 2 One more to go
- 3 Last chance...
- 4 BOOM!

## „Animation“
